### IBM POWER9 Systems Update

Join NEMUG on September 19th to hear the latest news and announcements on the POWER platform and IBM i Operating System.

IBM Power Systems with POWER9® processors are built for the most demanding, data intensive, computing on earth. Our cloud-ready servers help clients unleash insight from their data pipeline – from managing mission critical data, to managing their operational data stores and data lakes, to delivering the best server for cognitive computing.

Rick Cowles has been with IBM for 20 years, all spent in technical support on the AS/400, iSeries, System i, POWER platform. In his current role as POWER CTS (Client Technical Sales Specialist) he works with clients in the industrial sector across the US, specializing in server consolidation and virtualization on POWER Systems.

## **Message from the Board:**

We hope everyone is enjoying the very warm weather this summer. This season always goes by too fast every year!

We had an informative Planning Meeting in July and have some great topics for the 2018 - 2019 year including RDi, SQL, IBM connectivity and Security, POWER 9, system management and monitoring and others!

It is that time of the year to renew or start your company's Annual Membership to get discounted member pricing for all NEMUG meetings. The Invoice form is downloadable on the NEMUG website.

To kick-off our 2018-2019 year we have Rick Cowles from IBM discussing POWER 9 on September 19th. We look forward to seeing everyone at the meeting.

*Dawn Dawson*

NEMUG President

## **E-mail Notification**

If you are not on our e-mail list, go to the web site at [www.nemug.com](http://www.nemug.com) and click on the "Subscribe" button to be added to the list.

***Thank you for your support of NEMUG!***
